Prospect says: ABC company

Great how long have you been with them?

Prospect says: ? years: Well I certainly wouldn't want to distract you from your business.

Question... I am not sure where you are at with your business... right now... meaning... if I had people with Network Marketing experience that might be open to looking at your business are you in a good position to work with new people?

Prospect says: Oh yeah absolutely.

OK great, I have a system that connects people like you and me to other network marketers, what I can do is shoot you out a quick link to it and you can see if it is a good fit for your business... At very least you might get a good laugh because you will see how I was able to connect with you. Would you like me to send you the link to that?

You get the Prospect' s voice mail

You get the prospect' s voice mail: Hi this is your name I came across one of your sites here and I have a quick question, when you get a chance give me a buzz at your # thanks.

Please Note: We are NOT LYING to the prospect. When a lead is added to your contact manager it is because our system has gone to one of their network marketing websites and captured their contact info... so we did really come across one of their sites.
